LICHEN AND ALGAE REMOVER

Disinfectant/Algicide solution for removal

Description:

Lichen and Algae Removal is a safe and easy to use cleaner, formulated to effectively remove and control further regrowth of mould, algae, mildew and lichens. It is corrosive, and not harmful to vegetation.

It is important to note that Lichen and Algae Remover does not show immediate results but works slowly and effectively without damaging the surface. Some lichen and algae may take up to one week to remove. This product is biodegradable.

Directions for use:

For best results dilute solution with water and apply with brush or sprayer. Be sure to saturate porous surfaces. Consult your Cascade representative for further information.

Light Duty	1 part Lichen and Algae Remover Concentrate to 100 parts water
Medium Duty	1 part Lichen and Algae Remover Concentrate to 50 parts water
Heavy Duty and Commercial Use	1 part Lichen and Algae Remover Concentrate to 20 parts water

Interiors (walls, floors and ceilings)

Apply and leave on the surface for as long as possible, without drying out. Wash or sponge off excess residue.

Exteriors (roofs, patios, brickwork, fences, pathways etc)

Apply and leave on the surface for as long as possible. Do not apply before rain showers. Leave for a few days and remove with a stiff brush or high-pressure water spray. Alternatively, leave the product to dry on the surface and allow for the weather to do the work, results may take several weeks.
